Election/Restrictions

Applicant's election without traverse of Species A (Figure 4) in the reply filed on May 19, 2005 is acknowledged.

Claims 8, 9, 15, and 16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 19, 2005.

In response to the argument that claims 8, 9, 15 and 16 remain not withdrawn even though they are drawn to a non-elected species, the Examiner asserts that since no generic or linking claim is allowable, that these claims should be withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30, 31, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Fallin (US 5,108,452). Fallin anticipates the claim language where the femoral head as claimed is met by head (27) of Fallin, the neck as claimed is met by neck (14), the stem as claimed is met by stem (13), and the spacer as claimed is met by extension members (45,50); see Figure 1-5 and 18 as well as column 6, line 13 to column 8, line 18.

With regard to claim 31, Applicant is directed to Figure 1 which discloses a plurality of spacers.

Claims 30-32 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Subba Rao et al (US 2001/0051831). Subba Rao anticipates the claim language where the femoral head as claimed is met by the ball member (22) of Subba Rao, the neck as claimed is met by the spring mechanism and/or neck, and the spacer as claimed is met by coupling member (26); see Figures 1 to 4B and column 1, line 18 to column 4, line 22.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 33 and 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fallin (US 5,108,452) alone. Fallin meets the claim language except fails to disclose the sizes of the spacers as required by the present claims. However, the mere recitation of a size or relative dimensions, where the device would not perform differently than the prior art, does not render the device patentable. In other words, the claimed sizes for spacers would have been *prima facie* obvious to an ordinary artisan. MPEP 2144.04 is incorporated herein by reference as follows:

In Gardner v. TEC Systems, Inc., 725 F.2d 1338, 220 USPQ 777 (Fed. Cir. 1984), cert. denied, 469 U.S. 830, 225 USPQ 232 (1984), the Federal Circuit held that, where the only difference between the prior art and the claims was a recitation of relative dimensions of the claimed device and a device having the claimed relative dimensions would not perform differently than the prior art device, the claimed device was not patentably distinct from the prior art device.

Allowable Subject Matter

Claims 21-24 are allowed over the prior art of record.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06). Due to the procedure outlined in MPEP 2163.06 for interpreting claims, it is noted that other art may be applicable under 35 USC 102 or 35 USC 103(a) once the aforementioned issue(s) is/are addressed.

Applicant is respectfully requested to provide a list of all copending applications that set forth similar subject matter to the present claims. A copy of such copending claims is respectfully requested in response to this Office action if the application is not stored in image format (i.e. the IFW system) or published.
